HARPER'S EUROPEAN GUIDE-BOOK.

HARPER & BROTHERS, New-York.

Published This Day:
HARPER'S HAND-BOOK FOR TRAVELERS IN EUROPE AND THE EAST: being a Guide through France, Belgium, Holland, Germany, Italy, Austria, Russia, Denmark, Sweden, Spain, and Great Britain and Ireland. By W. BREWER PATRICK. With a Map embracing Colored Routes of Travel in the above Countries, and a new Railroad Map. Revised and Enlarged Edition. Large 12mo. Cloth, \$2; Leather Books, \$3.00.

The object of this work is to give a distinct and clear outline of routes through the principal cities in Europe, to give the cost of traveling the different routes, the names of the best hotels, the principal "Sights" and Works of Art in the leading cities, the fees exacted by custodians, &c. &c. By a careful attention to the rules laid down, the traveler will find himself the gainer by fifty per cent.

The remarkable success of HARPER'S HAND-BOOK, first published last year, has fully realized the expectations of the publishers, the instances being very rare where a traveler has crossed the Atlantic without a copy in his possession. The reason is evident, as this is the only European Guide-Book published in the United States, and the only complete one in a single volume in the English language. The entire work is REVISED and ENLARGED by the author, who went to Europe for that purpose.

Having been over the ground in person, Mr. Patricker would, we are willing to warrant, answer all the reader's wants to know. Harper's Guide-Book will answer all questions and give all directions necessary to the tourist from New York to the several estuaries of the Nile, Damascus, St. Petersburg, and every place worth a name in Europe, and the distances, including land and the railways, and the distances, but it descends to the minuteness of stating the precise route to a cloister, or the custodian of a gallery. A good feature of the book is the plan of towns from America to Europe and back, giving tours of travel, four, six, and twelve weeks with particulars of expense, &c. &c. M. J. Johnson, of Committee.

The author is an experienced traveler; and his clearly-printed, compact volume supplies a real want. The multitude of our people who are crossing the Old World, will find in it a valuable guide, and part of this Hand-Book will be starting and carry the volume with them...it gives a great amount of information, historical, statistical, descriptive, and critical; it advises the traveler upon a thousand little things which he cannot anticipate, yet upon which he will be pleased to be posted.—[CRITICAL REVIEW.]

The multitude of our people who are crossing the Old World, will find in it a valuable guide, and part of this Hand-Book will be starting and carry the volume with them...it gives a great amount of information, historical, statistical, descriptive, and critical; it advises the traveler upon a thousand little things which he cannot anticipate, yet upon which he will be pleased to be posted.—[CRITICAL REVIEW.]
